SUMMARY

Software Developer and builder with experience designing and developing **SaaS products** and **mobile applications** from idea to deployment. Proficient in **JavaScript, React.js, React Native, Node.js, Express.js, MongoDB, and Docker**. Strong understanding of full-stack development, API integration, and modern web technologies. Passionate about building products that solve real-world problems and delivering high-quality user experiences.

EDUCATION

Asian School Of Management and Technology, Kathmandu

Feb 2022 - Feb 2026

Bachelors in Bsc CSIT

WORK EXPERIENCE

Sajilo Life Pvt Ltd

May 2025 - May 2026

Frontend Developer (React and UI/UX desinger)

Kathmandu, Nepal

- **Designed** and prototyped user interfaces in **Figma** for e-commerce and ride-sharing applications, contributing to projects from concept to **production deployment**.
- Collaborated with backend developers to **integrate** APIs, develop new features, and deliver production-ready applications.
- Worked with cross-functional and **remote teams** to identify, troubleshoot, and resolve bugs, improving application performance and user experience.
- Utilized **Git/GitHub** for version control and **team collaboration** while following **Agile** methodologies and task management practices.

PROJECTS

Ecommerce Application | ReactJS & Bootstrap [Link](#)

- Fixed UI and functionality-related **bugs** to improve application stability and user experience.
- Identified and reported **backend-related issues** to developers, ensuring timely bug resolution.
- **Refactored** and **organized** code into a scalable structure, improving maintainability and readability.
- **Designed** user interfaces for **new features** while maintaining consistency with existing application designs.

Education Portal | ReactJS & Tailwind CSS [Link](#)

- **Designed** and **developed** the application from **scratch**, handling the complete development lifecycle from concept to deployment.
- Delivered and launched a production-ready application within a short development timeline.
- Owned **end-to-end** development, including **UI/UX design, implementation, and deployment**.

Portfolio App | ReactJS [Link](#)

- Developed a responsive portfolio website using **React.js** and **Tailwind CSS** to showcase projects, skills, and professional experience.
- Created a centralized platform featuring live project **demos** and **repositories**, enabling recruiters and clients to explore additional work and technical capabilities.
